About the Buffalo Olmsted Parks Conservancy
The Buffalo Olmsted Parks Conservancy is the first nonprofit organization in the nation to manage and operate an entire urban park system that consists of over 850 acres of beautifully designed parks, parkways and circles. The park system was designed by America’s first landscape architect, Frederick Law Olmsted, 150 years ago and today, more than 2.5 million people use Buffalo’s historic, award-winning Olmsted Park System annually for recreation, relaxation and rejuvenation. Since 2004, basic
maintenance of the parks has been greatly improved since the groundbreaking public/private agreement between the City of Buffalo, Erie County and The Buffalo Park Conservancy. The Conservancy is a membership-based, community organization whose mission is to promote, preserve, restore, enhance and maintain the Frederick Law Olmsted-designed landscape in the Greater Buffalo area.
